The leading
technology partner
for the process industry

Technology & Innovation | Turn Arounds & Projects | Maintenance | Fire Brigade & Security | Operations

*Multidisciplinary
high-tech engineering
service provider,
at Chemelot site
and beyond, with over
1.000 employees*

It's our mission to get the maximum out of each plant, in terms of both performance and cost-effectiveness

- By applying the **best innovations**
- Using the **newest digital solutions**
- And combining **decades of experience** in maintenance with data analytics

*One of today's
biggest social challenges
is achieving the
climate objectives*

Brightsite
Transforming industry

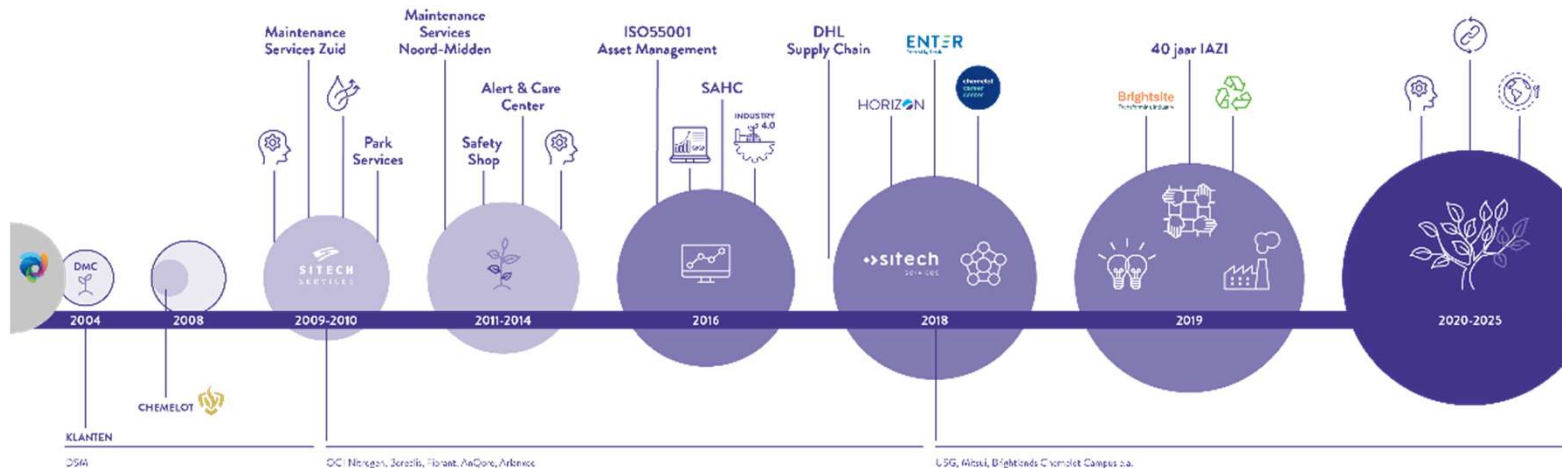

Realizing the plant of the future

Future plants are safe, climate neutral and autonomously operated with zero pollution and zero waste streams.

- **Improve existing plants** so that they can be operated preventive instead of corrective
- **Optimize lifetime extension plan** by managing trade-off improve versus replace aging assets
- **Work with the best professionals, partners and innovative techniques** so that plants can adapt to market conditions and **deliver maximum results** while making society more sustainable

 **sitech**
services

Sitech's transition to an innovative and market-oriented organization
